SPALDING ATHLETIC LIBRARY

The leading Base Ball annual of the country, and the official authority of the game. Edited by Henry Chadwick, the "Father of Base Ball." Contains the official playing rules, with an explanatory index of the rules compiled by Mr. A. G. Spalding; pictures of all the teams in the National, American and minor leagues; official averages; reviews of the season in all the professional organizations; college Base Ball, and a great deal of interesting information. Price 10 cents.

No. 202—How to Play Base Ball.

Edited by T. H. Murnane. New and revised edition. Contents: How to become a good batter; how to run the bases; advice to base runners, by James E. Sullivan, President A.A.U.; how to become a good pitcher; how to become a good catcher; how to play first base; how to play second base; how to play third base; how to play shortstop; how to play the infield; how to play the outfield; the earmarks of a ball player, by John J. McGraw; good advice for players; how to organize a team; how to manage a team; how to score a game; how to umpire a game; base ball rules interpreted for boys. Price 10 cents.

No. 223—How to Bat.

The most important part of ball playing nowadays, outside of pitching, is batting. The team that can bat and has some good pitchers can win base ball games; therefore, every boy and young man who has, of course, already learned to catch, should turn his attention to this department of the game, and there is no better way of becoming proficient than by reading this book and then constantly practising the little tricks explained. Price 10 cts.

No. 232—How to Run the Bases.

The importance of base running as a scientific feature of the national game is becoming more and more recognized each year. Besides being spectacular, feats of base stealing nearly always figure in the winning of a game. Many a close contest is decided on the winning of that little strip of 90 feet which lies between cushions. When hits are few and the enemy's pitchers steady, it becomes incumbent on the opposing team to get around the bases in some manner. Effective stealing not only increases the effectiveness of the team by advancing its runners without wasting hits, but it serves to materially disconcert the enemy and frequently has caused an entire opposing club to temporarily lose its poise and throw away the game. This book gives clear and concise directions for excelling as a base runner; tells when to run and when not to do so; how and when to slide; team work on the bases; in fact, every point of the game is thoroughly explained. Illustrated with pictures of leading players. Price 10 cents.

No. 230—How to Pitch.

A new, up-to-date book. The object of this book is to aid the beginners who aspire to become clever twirlers, and its contents are the practical teaching of men who have reached the top as pitchers, and who know how to impart a knowledge of their art. All the big leagues' pitchers are shown. Price 10 cents.

No. 229—How to Catch.

Undoubtedly the best book on catching that has yet been published. Every boy who has hopes of being a clever catcher should read how well-known players cover their position. Among the more noted ones who describe their methods of play in this book are Lou Criger of the Boston Americans and Johnnie Kling of the Chicago Nationals. The numerous pictures comprise all the noted catchers in the big leagues. Price 10 cents.

SPALDING ATHLETIC LIBRARY

No. 225—How to Play First Base.

No other position in a ball team has shown such a change for the better in recent years as first base. Modifications in line with the betterment of the sport in every department have been made at intervals, but in no other department have they been so radical. No boy who plays the initial sack can afford to overlook the points and hints contained in this book. Entirely new and up to date. Illustrated with full-page pictures of all the prominent first basemen. Price 10 cents.

No. 226—How to Play Second Base.

There are so few men who can cover second base to perfection that their names can easily be called off by anyone who follows the game of base ball. Team owners who possess such players would not part with them for thousands of dollars. These men have been interviewed and their ideas incorporated in this book for the especial benefit of boys who want to know the fine points of play at this point of the diamond. Illustrated with full-page pictures. Price 10 cents.

No. 227—How to Play Third Base.

Third base is, in some respects, the most important of the infield. No major league team has ever won a pennant without a great third baseman. Collins of the Boston Americans and Leach of Pittsburgh are two of the greatest third basemen the game has ever seen, and their teams owe much of the credit for pennants they have won to them. These men in this book describe just how they play the position. Everything a player should know is clearly set forth and any boy will surely increase his chances of success by a careful reading of this book. Illustrated. Price 10 cents.

No. 228—How to Play Shortstop.

Shortstop is one of the hardest positions on the infield to fill, and quick thought and quick action are necessary for a player who expects to make good as a shortstop. The views of every well-known player who covers this position have been sought in compiling this book. Illustrated. Price 10 cents.

No. 224—How to Play the Outfield.

Compiled especially for the young player who would become an expert. The best book on playing the outfield that has ever been published. There are just as many tricks to be learned, before a player can be a competent fielder, as there are in any other position on a nine, and this book explains them all. Price 10 cents.

No. 231—How to Coach; How to Captain a Team; How to Manage a Team; How to Umpire; How to Organize a League; Technical Terms of Base Ball.

Kelly on captaining; Al Buckenberger on managing; Frank Dwyer of the American League staff on umpiring; Fred Lake on minor leagues, and the editor, T. H. Murnane, President of the New England League, on how to organize a league. But nothing in this definition shall be construed to prohibit the competition between amateurs for medals, cups, or other prizes than money. To prevent any misunderstanding in reading the above, the Association draws attention to the following explanations and adjudications:

An athlete has forfeited his right to compete as an amateur, and has thereby become a professional, by—

(a) Ever having competed in an open competition, *i. e.*, a competition the entries to which are open to all, irrespective as to whether the competitors are amateurs or professionals, and whether such competition be for a prize or not, in any athletic exercises, *viz.*, base ball, rowing, cricket, etc.

(b) Ever having competed for money in any athletic exercise.

(c) Ever having competed under a false name in any athletic exercise.

(d) Ever having knowingly competed with a professional for a prize, or where gate money is charged, in any athletic exercise.

(e) Ever having taught or pursued as a means of livelihood any athletic exercise.

(f) Ever having directly or indirectly accepted or received remuneration for engaging in any athletic exercise.

(1) Directly or indirectly receive payment for training or coaching any other person in any athletic exercise.

(2) Directly or indirectly receive payment for services personally rendered in teaching any athletic exercise.

(3) Directly or indirectly receive payment for services rendered as Referee, Judge, Umpire, Scorer, Manager, Director, or in any other capacity at any professional exhibition or contest of any athletic exercise whatsoever.

NOTE.—Nothing herein shall be construed to prohibit the acceptance by any amateur of his necessary traveling expenses incurred as Referee, Judge, Umpire, Scorer, or Starter, in going to and from the place of any amateur contest.

(4) Directly or indirectly run, manage or direct, for prospective profit, any professional exhibition or contest.

An amateur shall not forfeit his right to compete as an amateur, and shall not become a professional, by—

(a) Receiving compensation for services rendered as ticket taker or ticket seller at any contest or exhibition of amateur athletics.

(b) Receiving compensation for services personally rendered as Secretary, Treasurer, Manager or Superintendent of any amateur athletic club.

(f) Receiving from a club of which he shall be a member, the amount of his expenses necessarily incurred in traveling to and from the place of any amateur contest.

(g) Nothing in this rule shall be construed so as to consider a man a professional who has played on a college team against a professional team.

ARTICLE XVII

ELIGIBILITY FOR COMPETITION

(1) No one shall represent any college or university as a competitor

at any intercollegiate meeting who is not an amateur as set forth in Article XVI. of this Constitution.

(2) No one shall represent any college or university as a competitor at an intercollegiate meeting, who, after February 26, 1898, has attended any training-table without paying for his board, at that training-table, an amount equal to that which his board would have cost him had he not been at that training-table.

(3) No one shall represent any college or university as a competitor at an intercollegiate meeting who has not been a member of that college or university, in good and regular standing, from the 15th of the preceding October.

(4) If a student has represented a college in any intercollegiate track meeting in which two or more colleges have participated, and has won a first or second place in such meeting, he shall not be eligible to represent in the annual field meeting any other college he may attend until he has attended such college one full calendar year, and shall have attained in the annual examination upon his work given during that period, a satisfactory standard of scholarship.

The poles shall be unlimited as to size and weight, but shall have no assisting device, except that they may be wound or wrapped with any substance for the purpose of affording a firmer grasp, and may have one prong at the lower end.

No competitor shall, during his vault, raise the hand which was uppermost when he left the ground to a higher point on the pole, nor shall he raise the hand which was undermost when he left the ground to any point on the pole above the other hand.

Any competitor shall be allowed to dig a hole not more than 1 foot in diameter at the take-off in which to plant his pole.

XXV

RUNNING BROAD JUMP

The competitors shall have unlimited run, but must take off from or behind the scratch. The scratch line shall be a joist 5 inches wide, the ground in front of which shall be removed to the depth of 3 and the width of 6 inches. Stepping over the scratch in an attempt shall be no jump, but shall count as a "try." Each competitor shall be allowed three trials, and the best four men shall have three more trials each. Each competitor shall be credited with the best of all his jumps. The measurement shall be from the outer edge of the joist to the nearest break of the ground made by any part of his person. Spalding Catalogues of Athletic Goods

We are issuing new catalogues continually throughout the entire year. Catalogues containing all information, cuts, description and prices of the full equipment for the particular athletic sport covered by each catalogue.

We charge nothing for these catalogues and we mail them free on request to any address. The first issues, however, are always sent to those that we have on our records here, and as there are generally many new things contained in these catalogues which are particularly interesting to athletes—every athlete and everyone interested in athletic goods should be on this record of ours. It is only necessary to send your name and address and state just what athletic sports you are interested in, and copies of our catalogues will be mailed to you as they are issued.

Foster's Patent Safety Hurdle

FOSTER'S SAFETY HURDLE AT THE WORLD'S FAIR, ST. LOUIS.

THE frame is 2 feet 6 inches high, with a horizontal rod passing through it 2 feet above the ground. The hurdle is a wooden gate 2 feet high, swinging on this rod at a point 6 inches from one of the sides and 18 inches from the other. With the short side up it measures 2 feet 6 inches from the ground, and with the long side up, 3 feet 6 inches. The hurdle can be changed from one height to the other in a few seconds, and is held firmly in either position by a thumb-screw on the rod. It would be hard to conceive any device more simple or more easily handled than this. The invention was used exclusively at the Olympic Games at St. Louis and has met with the approval of the best known physical directors and trainers of the country.

The Spalding "Highest Quality" Sweaters

We allow four inches for stretch in all our Sweaters, and sizes are marked accordingly. It is suggested, however, that for very heavy men a size about two inches larger than coat measurement be ordered to insure a comfortable fit.

Made of the very finest Australian lambs' wool, and exceedingly soft and pleasant to wear. They are full fashioned to body and arms and without seams of any kind. The various grades in our "Highest Quality" Sweaters are identical in quality and finish, the difference in price being due entirely to variations in weight.

Our No. AA Sweaters are considerably heavier than the heaviest sweater ever knitted and cannot be furnished by any other maker, as we have exclusive control of this special weight.

SPALDING OFFICIAL LEAGUE BALL

Is the Standard of the World

It is the Original League Ball

It is the Universally Adopted League Ball

It is the Official League Ball

It is the Best League Ball

It has been formally adopted as the Official Ball of

THE NATIONAL LEAGUE FOR 30 YEARS

It has also been adopted as the Official Ball for all Championship Games by the following Professional Leagues :

EASTERN LEAGUE for 20 years

NEW ENGLAND LEAGUE for 20 years

NORTHERN LEAGUE for 5 years

TEXAS LEAGUE for 13 years

WESTERN ASSOCIATION for 11 years

CALIFORNIA LEAGUE for 10 years

INTER-STATE LEAGUE for 9 years

NEW YORK STATE LEAGUE for 11 years

CENTRAL LEAGUE for 5 years

SOUTH ATLANTIC LEAGUE for 5 years

INDIANA, ILLINOIS and IOWA

LEAGUE for 7 years

And by 22 other Professional Leagues that have adopted the Spalding League Ball from 1 to 4 years.

THE Spalding League Ball was first adopted by the National League in 1878, and is the only ball that has been used in Championship League Games since that time.

In the recent great World's Championship Games in Chicago between the Chicago Nationals and the Chicago Americans the Spalding League Ball was used.

IN addition to the different American adoptions, the Spalding Official League Ball has been made the official ball by the governing Base Ball Associations of Mexico, Cuba, Canada, Australia, South Africa, Great Britain, Philippine Islands, Japan, and, in fact, wherever Base Ball is played. The Spalding League Ball has received this universal adoption because of its well established reputation for uniformity and high quality, but the special object of such adoptions, from the players' standpoint, is to secure absolute uniformity in a ball, that will prevent unfair "jockeying" with an unknown ball, and make National and International Base Ball contests possible, and at the same time make the records of players of value, and uniform throughout the world, which can only be secured by standardizing one well known ball.

The Spalding Official League Ball is used by Yale, Harvard, Princeton and all prominent college teams. The soldiers and sailors in the United States Army and Navy use it exclusively. In fact, the Spalding League Ball is in universal use wherever Base Ball is played.

Once in a while a minor league will experiment for a short time with some other ball, but invariably returns to the Spalding League Ball, which has now become universally recognized

The Standard of the World

Spalding Tennis Rackets

THE SPALDING GOLD MEDAL RACKET

THE SPALDING GOLD MEDAL RACKET, accompanied by the broadest guarantee ever given on an article of this kind has really proved the greatest sensation in the tennis line for many years. Our care in designing the racket at first, and then in making certain that every detail of manufacture was absolutely best quality, has brought to us players who were dissatisfied with rackets of unreliable quality, and a number of championships have been won by well-known players using the Gold Medal Racket. We use a dogwood insertion in shoulders after proving to our satisfaction by bitter experience that it is far superior to cane or other material for the purpose.

The difference between styles A and B is in the additional strings reinforcing the central portion of the latter. Handles 5 and 5 1/4 inches in circumference. Stringing of clearest and absolutely best quality lambs' gut. Each racket enclosed in special quality mackintosh cover. Tag attached to each racket giving particulars of special inspection.

GUARANTEE

We have endeavored to make this the finest racket ever placed upon the market, and as such it carries the Spalding Guarantee. If this racket proves defective in workmanship or material during the current year, return with this tag to any of our stores, or to the dealer from whom it was purchased, and the defect will be rectified. Imperfectly strung rackets will be re-stringed, and in the event of a broken frame, where the fault is ours, the racket will be replaced.

Durand-Steel Lockers

WOODEN LOCKERS are objectionable because they attract vermin, absorb odors, can be easily broken into, and are dangerous on account of fire. Lockers made from wire mesh or expanded metal afford little security, as they can be easily entered with wire cutters. Clothes placed in them become covered with dust and the lockers themselves present a poor appearance, resembling animal cages.

Durand-Steel Lockers are made of high-grade steel plates, and are finished with gloss-black Furnace baked Japan (400°), comparable to that used on hospital ware, which will never flake off nor require refinishing, as do paints and enamels.

Durand-Steel Lockers are usually built with doors perforated full length in panel design, with sides and backs

solid. This prevents clothes in one locker from

coming in contact with wet garments in adjoining lockers, while plenty of ventilation is secured by having the door perforated its entire length, but if the purchaser prefers we perforate the backs also.

The cost of Durand-Steel Lockers is no more than that of first-class wooden lockers, and they last as long as the building, are sanitary, secure, and in addition, are fire-proof.

We are handling lockers as a special contract business, and shipment will in every case be made direct from the factory in Chicago. If you will let us know the number of lockers, size, and arrangement, we shall be glad to take up through correspondence the matter of prices.

Who are A. G. Spalding & Bros.?

Albert G. and J. Walter Spalding commenced business March 1st, 1876, at Chicago, under the firm name A. G. Spalding & Bro., with a capital of \$800. Two years later their brother-in-law, William T. Brown, came into the business, and the firm name was then changed to A. G. Spalding & Bros.

The business was founded on the Athletic reputation of Mr. A. G. Spalding, who acquired a national prominence in the realm of Sport, as Captain and Pitcher of the Forest City's of Rockford, Ill. (1865-70), the original Boston Base Ball Club (Champions of the United States, 1871-75), and the Chicago Ball Club (1876-77), first Champions of the National League. He was also one of the original organizers, and for many years a director, of the National League of America, the premier Base Ball organization of the world. Mr. Spalding has taken an important part in Base Ball affairs ever since it became the National Game of the United States at the close of the Civil War in 1865. The returning veterans of that War, who had played the game as a camp diversion, disseminated this new American field sport throughout the country, and thus gave it its national character.

Base Ball Goods were the only articles of merchandise carried the first year, the total sales amounting to \$11,000. Gradually implements and accessories of Athletic Sports were added, until the firm now manufacture the requisites for all kinds of Athletic Sports. Originally the firm contracted for their supplies from outside manufacturers, but finding it impossible, by this method, to keep the standard of quality up to their high ideals, they gradually commenced the manufacture of their own goods, and by the acquisition from time to time of various established factories located in different parts of the country, are now able to, and do manufacture in their own factories everything bearing the Spalding Trade-Mark, which stands the world over as a guarantee of the highest quality.

There are over three thousand persons employed in various capacities in A. G. Spalding & Bros.' factories and stores located in all the leading cities of the United States, Canada and England. A capital of over \$4,000,000 is employed in carrying on this business, and the annual sales exceed the total combined annual sales of all other manufacturers in the world making a similar line of goods.

A. G. Spalding & Bros. have always taken a leading part in the introduction, encouragement and support of all new Sports and Games, and the prominence attained by Athletic Sports in the United States is in a very great measure due to the energy, enterprise and liberality of this progressive concern. They were the pioneers, and in fact the founders, of the Athletic Goods Trade in America, and are now universally recognized as the undisputed Leaders in the Athletic Goods line throughout the world.

The late Marshall Field of Chicago, America's greatest Merchant, speaking of the business of A. G. Spalding & Bros., said: "I am familiar with its early career, growth and development, and when I compare its unpromising outlook and the special field for its operations that existed at its inception in 1876, with its present magnitude, I consider it one of the most remarkable mercantile successes of the world."

The millions of Athletes using them, and the thousands of Dealers selling them, attest to the High Quality of Spalding's Athletic Goods, and they must determine the future history of this concern.

A. G. Spalding & Bros.
are the leading manufacturers
of Athletic Goods in the world.
